Are chronic diseases such as diabetes, cardiovascular problems, and joint pains troubling you? Are anxiety, depression, and anger and other such emotions bringing you and your performance down? Are you constantly on medications for digestion and respiratory issues? If you answer "yes"

to any of the above questions, you are probably suffering from an imbalance of energy in your subtle, non-physical body. So, what is the subtle body? In many spiritual traditions, the subtle body is the sacred or the immortal body. It never dies and when the physical body dies, your subtle body merges into the universe. It comprises of the intelligence, mind and ego, aspects that control the human

physical body. The terms "aura" and "chakras" refer to parts of your subtle plane of existence. These are usually seen by the mind's eye and not your physical eyes. Disturbances in your auric field or imbalances in the flow of energy through the chakras manifests as physical, mental, and emotional disorders in the physical world. Mostly, when people fail to heal their physical

bodies with modern medicine, the only solution is to turn towards healing the non-physical subtle body. Just by working on balancing your chakras and your energy field called aura you will notice that your chronic disorders are much under control, your emotions are much balanced, and you are spiritually more connected to the universe and your Higher Power. Don't wait

until you fall ill to begin taking care of your chakras and aura. Take action now and start learning about chakras and the subtle body. This comprehensive guide is perfect to get you started on this journey. It will help you learn about what are chakras, what the 7 main chakras are, and how to strengthen your aura and radiate strong, positive and healthy energy by opening or balancing your chakras. You

will also find a chakra test here that will help you find out which of your chakras is imbalanced. There is also an exclusive section on the third eye for people interested in awakening it and promoting their intuitive and psychic abilities.
