self-confident as a lover. **The Complete Idiot's Guide to the Kama Sutra** Cambridge University Press The innovative program described in this book revolutionizes the the treatment of sexual dysfunction. During eleven years of daily clinical work, more than five hundred couples have been treated at Masters and Johnson's Reproductive Biology Research Foundation in St. Louis. Here the relationship itself is the patient. The authors stress that there is no uninvolved partner when sex is a problem. Therefore they treat the partners even if only one appears to be sexually dysfunctional. And their therapy techniques have proven successful in 80 percent of all cases treated. The key to this unprecedented record is the role of the dual therapy team. Masters and Johnson have found that it takes both a man and a woman therapist to treat a couple effectively. The dual therapy team acts as a catalyst, encouraging communication between partners when none has existed before. They use psychological and psychological methods of

treating impotence, ejaculatory incompetence, premature ejaculation, orgasmic dysfunction in women, vaginismus, and painful intercourse. Basic to all treatment techniques is the premise that attitudes and ignorance rather than any mental or physical illness are responsible for most sexual problems. The two-week rapid therapy program developed by Masters and Johnson includes both counseling and specific instructions for patients to follow in privacy. All results of success or failure reported in *Human Sexual Inadequacy* are substantiated by a unique five-year patient follow up program. The concept and format of the therapy program are examined in detail in the first two chapters of the book. Included are discussions of the qualifications for co-therapists and accounts of history-taking techniques and round table talks held by the co-therapists and the couple. A full description follows of the instructions given by the therapists to effect psychosexual reorientation of the marital problems. Analysis of each type of dysfunction, its progression and

manifestations, accompanies the important step-by-step explanation of practical treatment methods. Chapters on sexual function and dysfunction of the geriatric population explain how the aging male and female can function sexually even in their eighties if they learn to adjust their sexual activities to the natural changes of aging. Program statistics and a critical review of treatment failures conclude this landmark book. Masters and Johnson estimate that one-half of the marriages in the United States are threatened by sexual dysfunction. The therapy program described in *HUMAN SEXUAL INADEQUACY* introduces a new era in the effective treatment of these sexual difficulties that prevent the enjoyment of a full sex life and a happy marriage. The exceptionally clear account of their major breakthrough in therapy is a long-needed and invaluable guide to clinical counseling and treatment. In addition, it provides an excellent basis for training programs for professional therapists. *HUMAN SEXUAL INADEQUACY* is

essential reading for all health professionals and introduces a new era in the effective treatment of sexual dysfunction. *The Ultimate Guide to Anal Sex for Women* W. Since Darwin's day, we've been told that sexual monogamy comes naturally to our species.

Mainstream science—as well as religious and cultural institutions—has maintained that men and women evolved in families in which a man's possessions and protection were exchanged for a woman's fertility and fidelity. But this narrative is collapsing. Fewer and fewer couples are getting married, and divorce rates keep climbing as adultery and flagging libido drag down even seemingly solid marriages. How can reality be reconciled with the accepted narrative? It can't be, according to renegade thinkers Christopher Ryan and Cacilda Jethå. While debunking almost everything we "know" about sex, they offer a

bold alternative explanation in this provocative and brilliant book. Ryan and Jethå's central contention is that human beings evolved in egalitarian groups that shared food, child care, and, often, sexual partners. Weaving together convergent, frequently overlooked evidence from anthropology, archaeology, primatology, anatomy, and psychosexuality, the authors show how far from human nature monogamy really is.

Human beings everywhere and in every era have confronted the same familiar, intimate situations in surprisingly different ways. The authors expose the ancient roots of human sexuality while pointing toward a more optimistic future illuminated by our innate capacities for love, cooperation, and generosity. With intelligence, humor, and wonder, Ryan and Jethå show how our promiscuous past haunts our struggles over monogamy, sexual orientation, and family dynamics. They explore why long-term fidelity can be so difficult for so many; why sexual passion tends to fade even as love

deepens; why many middle-aged men risk everything for transient affairs with younger women; why homosexuality persists in the face of standard evolutionary logic; and what the human body reveals about the prehistoric origins of modern sexuality. In the tradition of the best historical and scientific writing, *Sex at Dawn* unapologetically upends unwarranted assumptions and unfounded conclusions while offering a revolutionary understanding of why we live and love as we do.

### **The Purple Decades**

Oxford University Press *Lady Chatterley's Lover* is a novel by English author D. H. Lawrence, first published privately in 1928 in Italy and in 1929 in France. An unexpurgated edition was not published openly in the United Kingdom until 1960, when it was the subject of a watershed obscenity trial against the publisher Penguin Books. Penguin won the case and quickly sold three million copies. The book was also banned for obscenity in the United States, Canada, Australia, India, and Japan. The book soon became notorious for its story of the physical (and emotional) relationship between a working-class man and an upper-class woman, its explicit descriptions of sex, and its use of then-unprintable four-letter words.
